

Come out of your cave and join the Janner Men's Shed!

Put your skills to good use whilst making new friends. We've been making wooden items to sell and donate to the community.

A Men's Shed is a larger, communal version of the typical man's shed in the garden. It offers a group of men a place where they can share tools and resources to work on projects in a safe, friendly and inclusive environment. They are places of skill sharing and where men can come together to work on individual pursuits and community projects.

We meet regularly for an afternoon at Leigham Community Hall, Thurlestone Walk, Leigham, PL6 8QE.
